

Ticket Summit

OVERVIEW

THE WORLD'S LEADING CONFERENCE IN TICKETING & ENTERTAINMENT

In an effort to create a forum among key leaders in the ticketing and live entertainment industry, the first **Ticket Summit®** was launched in July 2006 at The Venetian Resort Hotel Casino in Las Vegas, Nevada. The goal: to bring together **all the top executives** in the event ticket supply chain for a one-of-a-kind networking and business development event. From promoters and producers, to box office managers and tickets sellers, **Ticket Summit®** was set, and currently stands, as **the networking destination** for ticket industry executives.

The first **Ticket Summit®** marked a milestone for a first-time conference, with over 300 attendees. Its initial success set the stage for the conferences to follow, during which time attendance more than doubled. By 2008, the popularity of the conference was such it was decided to transform the venture into a bi-annual conference; a winter conference in New York City and a summer conference at its home base in Las Vegas.

A three-day conference and trade show, **Ticket Summit®** provides industry executives with educational forums on the state of the industry, business development sessions, and a variety of networking events. As such, **Ticket Summit®** attendees not only gain invaluable industry information, but also establish key business relationships that will help their ventures grow. And with ongoing conferences in New York City and Las Vegas, attendees can always stay up to date on industry trends throughout the year.

ATTENDEES INCLUDE

BOX OFFICE MANAGERS • CONCERT & EVENT PROMOTERS
TICKET SELLERS • THEATER PRODUCERS
